

Before your trip

## Unplug all household appliances

Turn down the thermostat

Pack a green suitcase: lightweight with multipurpose items, a water bottle & a shopping bag

Suspend your newspaper delivery

For traveling, choose the most direct route with an eco-friendly airline

# Go Green with us!

## A little Green Travel summary.

During your stay

Help us recycle waste (plastic, metal, glass, paper, carton, bio)

**REUSE TOWELS**

Turn off lights when not in your room

Remember the low-flow flush option of the toilet

Take short showers

**Eat greens**

Buy your souvenirs from the locals

**AVOID PLASTIC BOTTLES**

Drink tap water

After returning home

## Spread the word about green traveling!

Continue with the ecological habits: eat greens, drink tap water when possible, turn off appliances when not needed, avoid plastic, recycle, use reusable items and cut down on water usage.

Before buying new stuff, ask yourself: Do I really need it?  
If really needed: Can I get it second hand or make it myself?  
If need to buy new: Who is the most green provider?

*"Don't blow it - good planets are hard to find"* - quoted in Time
